HOW BAIL WORKS

From Arrest to Case Resolution

1

Arrest & Booking

You are taken into custody, processed, and charged with a crime.

2

Bail Set by Court

A judge determines the bail amount based on the charges and circumstances.

3

Choose How to Pay

Pay the full amount, use a bail bond (typically 10%), or other approved options.

4

Release From Custody

Once payment is processed, you are released from jail.

5

Attend All Court Dates

You must appear in court as scheduled and follow all court orders.

6

Case Ends — Bail Exonerated

When the case is resolved, you've fulfilled your obligations and the bail is exonerated.
